

Dear Prospective Residency Applicant:

Thank you for your interest in the PGY-1 Pharmacy Residency at the Atlanta Veterans' Affairs Medical Center (VAMC). The goal of our residency program is to foster exceptional clinical pharmacy professionals that develop into competent, independent, and compassionate members of the health care team. Our program will instill the mission, visions, and values of our hospital while creating an environment which encourages learning and growth.

The pharmacy department at the Atlanta VAMC offers a wide variety of opportunities for clinical development. Our pharmacy staff includes over 50 Clinical Pharmacy Specialists, 15 inpatient pharmacists, and 25 outpatient pharmacists. In addition to having pharmacy representation in many specialty areas, our pharmacists participate in interdisciplinary teams that impact patient care and hospital operations. Most exceptional is that all our clinical pharmacists have provider status and offer direct patient care under an advanced scope of practice. We are excited to be leaders in pharmacy career advancement and are passionate about teaching new practitioners.

Attached you will find additional information about our residency program. We appreciate your interest in the Atlanta VAMC and look forward to meeting you!

Sincerely,

Kathy Davari, Pharm.D.

Residency Program Director
Atlanta VA Medical Center
1670 Clairmont Rd. (119)
Decatur, GA 30033

SETTING

The Atlanta VA Medical Center is a level 1A tertiary care facility which delivers patient-centered healthcare via an array of comprehensive medical, surgical, geriatric specialty services, as well as state-of-the-art diagnostic testing throughout 14 sites of care. The main medical center is located in the beautiful city of Decatur, just minutes from downtown Atlanta.

RESIDENCY PROGRAM PURPOSE STATEMENT

Pharmacists completing this residency will be competent, compassionate, and independent practitioners providing patient-centered care in diverse health care environments. They will be skilled in educating health care professionals, patients, and others regarding medication-related issues. They will practice professionally and with high personal standards in order to be an effective member of the health care team.

EDUCATIONAL AFFILIATION

As a teaching and research institution, affiliation with other educational organizations is an integral part of our practice. Affiliations include, but are not limited to, Emory University, Morehouse University, Mercer University, and Philadelphia College of Osteopathic Medicine.

POST-GRADUATE YEAR ONE PHARMACY RESIDENCY (PGY1)

The residency is a one-year postgraduate program that provides training in different areas of pharmacy practice. Our program is accredited by ASHP and offers three residency positions.
